

29 April 2022

ACTIVITIES REPORT FOR QUARTER ENDED 31 MARCH 2022

Coal Projects

The company is continuing to explore alternative technologies to utilise its coal on-site which could produce products such as ammonia, methanol, hydrogen, energy and other products. These technologies look to take advantage of the developing “hydrogen economy”. The company’s focus is the long term production of energy related products.

In addition to the developing hydrogen economy opportunities, on 15 October 2021, AUH announced it had entered into a non-binding Memorandum of Understanding with Fortress Capital Limited to conduct due diligence on a new technology that could enhance AustChina’s energy portfolio through the conversion of solid fuels including coal, municipal household and commercial waste, biomass, and other material to generate cleaner environmentally responsible electricity.

The company has tested its coal from the Blackall coal deposit and another solid commercial waste product and to date is satisfied with the outcomes. The company is continuing with its due diligence with the assistance of Fortress Capital. This process has the potential to reduce carbon emissions and utilise fuel sources such as coal, municipal household and commercial waste that would otherwise go to landfill to produce energy for its own purposes or for sale to the electricity grid.

There were no substantive mining production or development activities undertaken during the quarter. No field activities were scheduled or carried out during the quarter.

Farm-in and Farm-out Arrangements

Beneficial percentage interests held in farm-in or farm-out agreements at end of the quarter – no change from the previous quarter.

Beneficial percentage interests in farm-in or farm-out agreements acquired or disposed of during the quarter – no change from the previous quarter.

Tenement Portfolio Update

Tenements held at the end of the quarter and their locations are as follows:

TENEMENT	NAME	HOLDING
EPC 1719	Barcoo River/Blackall	100%
EPC 1993	Blackall South Corner	100%

CORPORATE ACTIVITIES:

Investment in Utilitas

AustChina holds 25.12% of Queensland, Australia based bioenergy developer Utilitas Group Pty Ltd, and is well positioned in the bioenergy and bioproducts field in Australia. Utilitas and key project counterparts, have advanced Bankable Feasibility Studies on its top three priority projects Bundaberg, Hunter & Dandenong, and continue to add to its future pipeline of projects.

Utilitas continues to lock down commercial aspects of its 3 priority projects (Bundaberg, Dandenong & Hunter).

Support for biogas and related industries continues to strengthen, most recently promoting commercial engagements. A more intensive project funding process will begin upon securing the last few remaining commercial arrangements.

The Bundaberg bioHub development site is now undergoing land development in preparation for several synergistic businesses including Utilitas' Bundaberg project to take up tenancies. Across the site, a Development Approval has been accepted for one of these businesses.

The Dandenong and Hunter projects are shifting forward, engagement with waste aggregators continues, securing more of the project to meet economic viability.

Investment in Revolver Resources Holdings Limited (ASX: RRR)

On 23 September 2021, Sector merged with Dianne Mining Corporation Pty Ltd and listed on the ASX as Revolver Resources Holdings Limited. (Revolver)

Revolver has continued with its exploration of the Dianne Project. The company today reported to ASX that laboratory assay results have been received for the initial holes drilled in the very successful recent 2,994m 17 hole diamond drill campaign.

AUH congratulates Revolver on these results and continues to see long term potential in the copper sector.

Payments to Related Parties

A total of \$23,000 was paid to directors and their associates for salaries, director fees and superannuation during the quarter ended 31 March 2022.

Authorised by the Board.

Yours faithfully,

Daniel Chan – Chairman

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
