Dear Sir

ACTIVITIES REPORT FOR QUARTER ENDED 30 JUNE 2014

ACTIVITIES RELATED TO ENERGY PROJECTS:

Coal Projects – General

The Company completed its initial scout drilling programme in EPC 2239 at 5 sites in the previous (March) quarter.

Some coal seams were identified at several of these sites and chip samples of coal from two sites were sent for analysis with the intent of establishing the rank of the coal. Mean Maximum Reflectance (%) of vitrinite (a measure of coal rank) were 0.73 and 0.90 for these samples. Further work including cored samples from the permit will be required to support these initial coal rank results.

The Company is undertaking planning for further exploration in EPC 2239 later this year. Statutory reporting and where relevant relinquishments of sub-blocks have been made in accordance with the conditions of the various exploration permits and the Mineral Resources Act (1989) as required.
